Ivy Menken, Assistant Principal

To Whom It May Concern:

I have had the pleasure of working with Jacquin and Sons, Inc. on Warfield Elementary's most recent construction project. During the 2008-2009 school year, Jacquin and Sons, Inc. completed a classroom building for our arts and science departments. The Jacquin staff participated in all phases of this project including the design phase.

I found the Operations Manager, Project Manager and the Project Superintendent to be extremely professional and responsive to the needs of the school. The team from Jacquin was easily accessible and they contacted me whenever they needed input from the school administration.

All phases of the project were completed in a timely manner and the quality of the work was excellent. Jacquin's team worked very well with school district personnel as well as school site personnel. Any question or concerns presented at the construction meetings were immediately addressed. Jacquin's level of responsiveness to their customer is outstanding.

This was my third construction project at Warfield Elementary in the last nine years. I have dealt with three different construction companies. Jacquin and Sons, Inc. is by far the most professional, most responsive and most competent company that I have worked with on a project.

I can without reservation recommend Jacquin and Sons, Inc. for any project. If I can provide any further information, please contact me.

Sincerely,

A handwritten signature in cursive script that reads "Loreen Francescani".
